OTHER MARKETS

Fashion On Screen has agreed a \$55m loan facility with The Ambient Partnership Group that will help to finance its films and on acquisitions. The facility can be drawn down over The Vienna Stock Exchange-listed film company raised £100,000 when it floated and has also received an investment from Twickenham Studios. Some of the finance will be used to film *REvolution*, a film based on the kidnapping of racing driver Juan Fangio in Cuba before the 1958 Cuban Grand Prix. Pre-production is set to begin, and the film could be completed in time for a cinema release in 2020.
